

Group tours, company tours & incentive trips in the Seychelles islands (Sailing yachts with crew)

Large as well as small companies are always looking for new ideas for incentive and group tours as rewards for their employees. As a way of promoting team-building and strengthening group dynamic, such cruises are ideal. We offer an excellent opportunity for your incentive trip: sailing through the beautiful Seychelles islands.

We are able to accommodate up to 48 guests in our group tour in the Seychelles, in a small fleet of 1-4 yachts with a professional crew in our excellently equipped catamarans.

We will help you to plan your individual incentive trip on the water with excellent service: full-board, drinks allowance and equipment for leisure activities such as kayaking, snorkeling and much more.

We can also offer help to organise and ideas for free-time and team building activities such as:

- Build a boat
- Water balloon fights between and on the boats
- Barbecues on the beach
- a gorgeous meal in an excellent restaurant
- Excursions and visits to the respective islands
- Transfers
- Guided tours

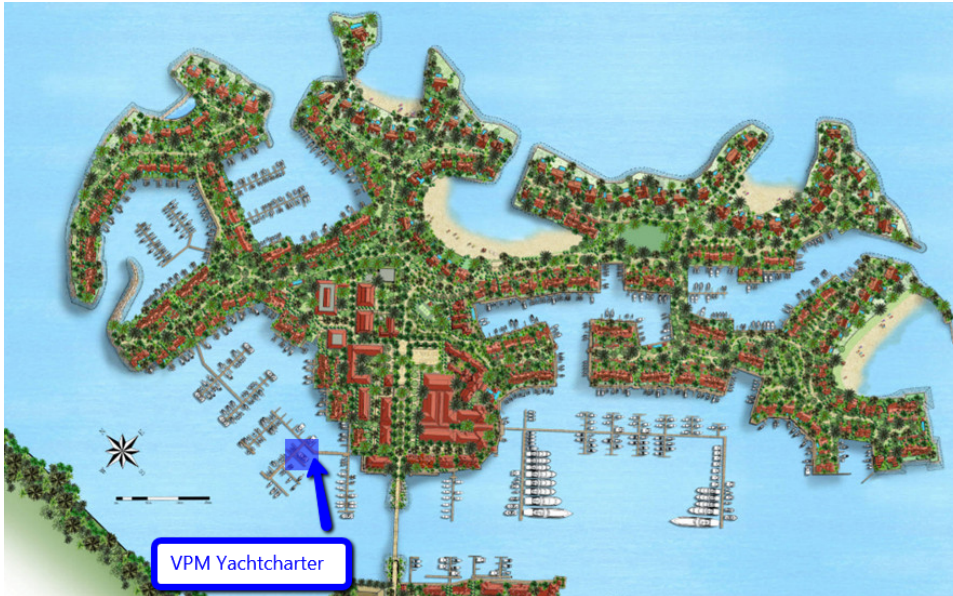

If you would like to plan a group tour for your company and a create a unique experience for your employees, we recommend our sailing yachts including crew. Explore a new island every day and discover the most beautiful beaches and bays in the world.

Experience a high level of comfort on our catamarans for group sailing trips.

Company tours, Incentive, meetings, incentives, conferencing, exhibitions (MICE),
Group tours in the Seychelles.

COURSE OF ACTION

Day 1: Mahé - Sainte Anne

Welcome aboard our large catamaran Catlante 600. To enjoy the cruise, the captain and the hostess provide some initial guidelines for the life on board and show you around the yacht. If you understood everything, you will leave Mahé for a short trip to the St Anne Marine Park. The island was the largest and the first island where the French settled down in 1750 before they occupied Mahé. More than 150 species of fish inhabit

the underwater world which is highly protected. Welcome in paradise at this first stop: pull on a diving mask, snorkel and fins and jump into the blue water! Dinner and overnight directly at anchor in Marine Park.

Day 2: St. Anne - Praslin

After breakfast and a morning swim in the natural aquarium we will continue the sailing trip to Praslin. The second largest island of the Seychelles, located 45 km north-east of Mahé, is only 10 km long and 3.7 km wide! You will anchor at Anse Lazio, another beautiful beach in the world. You will enjoy this stopover to explore Praslin (Praslin excursion not included in price) with its white sand. Another gem of the island is the Vallée de Mai, classified as a World Heritage Site by UNESCO. If the Garden of Eden existed, it would resemble the Vallée de Mai. The large palm forests are the home to the legendary Coco de Mer, the largest seed in the world, the famous name of the tree coco fesse, which can grow over 30 feet. The forest is the home of six species of palm trees that can only be found in the Seychelles. La moiteur ambiante (rock formations on the beach), intoxicating fragrances, rustling palm trees, the dawn with its golden sunsets, will let you immerse in another world.

Dinner and overnight directly at anchor on the beach.

Day 3: Praslin - La Digue

In the early morning you will sail to your next stop, the legendary island of La Digue. "Anse Source d'Argent" is one of the most photographed beaches in the world. The "Anse Source d'Argent" on glossy paper, you can

capture this moment for eternity. You can only wonder how a place can have so much beauty ... La Digue is nature reserve and home to one of the rarest birds on earth-the Black Flycatchers. The island has a variety of orchids, vanilla vines, hibiscus or nepenthes and carnivorous plants. The local fountains have been baptized "water pot". The island can be explored by bicycle or oxcart. The idyllic island has much to offer, as for example: a small traditional shipyard, a copra factory which produces oil from dried coconut meat and a few steps away you will find pasture for turtles Not to mention the beautiful colonial house "Emmanuelle", where the famous movie "Goodbye-Emmanuelle" was filmed.

Dinner and overnight at anchor in La Digue.

Day 4: La Digue - Coco - Curieuse

This morning we will set sail to Coco Island, located 7 km north of La Digue. It is close to the neighboring islands such as Felicité and her sister islands. Since 1996 the island is classified as a marine park. The island is also very good for snorkeling. After this morning's excursion into the wonderful world of corals, you will be sailing on your third island of the day,

Curieuse. The island is a contemporary witness of rough times. The lepers were brought to Anse Saint Josephin and accommodated in a house which a doctor turned into a museum in 1870. Today you also have the chance to see giant tortoises found across the island. It is also an important breeding ground for loggerhead turtles.

Dinner and overnight at anchor in Curieuse.

Day 5: Curieuse - Saint Pierre - Praslin

Departure in the morning from Curieuse and away you go to the island of St. Pierre. Saint Pierre is one of the islands in the bay of Cote d'Or, Praslin. It is a tiny island with granite rocks and coconuts. An iconic image of the archipelago. The perfect place for swimming and snorkeling. A day of relaxation, which is interrupted shortly by a beautiful sunset. Dinner and overnight at anchor off the beach of Praslin.

Day 6: Praslin - Cousin - Mahé

After breakfast and a bath in the morning it's going on to Cousin Island, it is a few miles from Praslin, next to his neighbor's Cousin. It is managed since 1975 by BirdLife International and is a nature reserve since 1968. Cousin is a bird sanctuary which is home from 25,000 birds, including some rare species such as the Seychelles warbler, the Pie Chanteuse and the Seychelles Turtle Dove (red pigeon) in red, which are threatened by extinction.

A colony of turtles and geckos which were imported from Aldabra Atoll are spending happy days here. A visit to the Paradise Oiseaux always is it worth. You will see 5 species of birds that live in this region. Then you will sail back to the main island Mahé, your eyes fixed on the beach of Beau Vallon, where you can find entertainment, water sports, bars and shops.

Dinner and overnight at Beau Vallon.

Day 7: Mahe

The last day will be spent how you want for example, relax one of the most beautiful bays of Mahé or explore the island and discover especially its small capital, Victoria. Mahe has almost 90% of the population of the island infantry and has a rich natural heritage. With granite rocks of 1000 m altitude, Mahe has an

extraordinary flora, obtained by the time of his isolation in height. At the evening, your ship is near the naval base in Roche Caiman, between the airport and Victoria on the opposite of the Cerf Iceland.

Farewell dinner on board and last night at the home port.

Day 8: Mahe

Last breakfast on board and disembark in the morning to get your return to the airport, or continue to enjoy your holidays in this archipelago.
