

The sea and the coast, the islands and islets between Sardinia and Corsica are some of the most beautiful that the Mediterranean has to offer. The only thing that can be a problem here in high summer is the confused swell caused by the many motorboats and the very high prices in the marinas. Porto Cervo is the Mecca of the super-rich and sailing regattas at their finest, organized by the Yacht Club Costa Smeralda. Otherwise, pure splendor reigns, bright anchor bays are framed by light brown granite blocks. You won't want to leave here. The best thing about this area is that you don't have to sail long distances. You can if you want to.

For the La Maddalena nature reserve, which should not be missed on any Sardinia cruise, a fee-based registration is required in advance, which can be registered via us / our local partners approx. 10 days before your stay.

However, there are also plenty of beautiful anchorages and buoy spots for overnight stays around Sardinia - here are a few examples: Cala di Volpe, Golfo del Pevero, Liscia di Vacca, Baia Sardinia, Baia Saline, Porto Raphael free mooring, Porto Pollo, Porto Liscia

The area is therefore still an absolute recommendation.
